

## "Wainwright Days" Favored by Weather Man

The annual "Wainwright Days" sponsored by the business men of Wainwright were held this year on Wednesday and Thursday, December 10th and 11th. A record crowd of thousands of the "mild" weather, to bring the kiddies to town to see Santa Claus and complete their own Christmas shopping.

## Gerald Club Holds December Meeting

An interesting meeting of the Gerald Club was held at the home of Mrs. R. Doyall on Thursday afternoon. Thirteen members and two visitors were present. Mrs. Myrland presented. Roll call was "A Christmas Verse." Letters of thanks for baskets of fruit were received from three people.

It was decided to send a letter of appreciation to the Canadian Legion for the conveniences provided by the Legion Canteen; that Mrs. D. Ratray Sr. and Mrs. E. Gullekson be a committee to purchase gifts for the Legion Canteen Christmas tree; that Mrs. C. Gullekson and Mrs. G. Valen be a committee to ascertain the probable cost of furnishing a ward in the Wainwright hospital.

Selection of officers then took place with the following being elected: President—Mrs. L. Myrland; Vice President—Mrs. C. Gullekson; Secretary—Mrs. L. Hamilton; Treasurer—Mrs. E. Erickson; Librarian—Mrs. E. Gullekson; Fruit Committee—Mrs. D. Ratray Sr. and Mrs. E. Campbell; Bazaar Work—Mrs. R. Doyall. Each member then grasped one of the strings hanging from the Christmas tree and drew her Christmas present. One new member Mrs. J. Phipps joined the club. The programmes for the next six months were prepared by Mrs. A. Zahner and Mrs. Erickson and distributed at this meeting. All then enjoyed the beautiful lunch supplied by Mrs. Doyall, as they sat at a table decorated for the Christmas season and laden with Christmas treats.

## Made to Measure Patterns For Home Dressmaking

Women who enjoy doing their own sewing and dressmaking will soon be able to obtain made-to-measure patterns styled to their personal measurements. These new, single-sheet patterns were developed by fashion designer, Maurice Klaiman of Designing Centre Reg'd., who supervised wartime "remake" clinics in Montreal during the war years where he helped thousands of women design and cut out patterns for converting worn clothing into useful articles for their own use or for shipment overseas.

Mr. Klaiman discovered that many women found it hard to fit the standard cut patterns to their own particular measurements. After two years of research into this problem, he recently perfected a system for made-to-measure patterns which is so simple to use that the entire pattern for a dress, suit, coat or evening gown is laid out on a single sheet of paper ready for cutting. This eliminates the annoyance of having to place numerous strips of pattern pieces on the fabric before cutting and makes home dressmaking a pleasure even for the inexperienced housewife.

This new system is really simple. After the basic tailoring measurements are taken, a primary pattern is made up, from this an inexpensive muslin proof is cut and sewn. Minor adjustments for the individual figure are easily made on this muslin proof and this is then used by Mr. Klaiman in making up a master pattern for future use. Simply by using the master pattern as a guide, Mr. Klaiman and his dress designers can make up any style of dress or gown. Once the style is selected, the expert designers lay out a personalized pattern. Traced on a single-sheet paper pattern, the entire garment is laid out to the exact width of the fabric being used and can then be cut and sewn at home with a minimum waste of time and material.

Because every pattern is pre-designed to personal measurements, the garments are invariably a perfect fit when assembled and tried on for the first time.

## Candle Light Service at Grace United Church

A very impressive vesper service took place at Grace United Church, Wainwright on Sunday last. The COIT under the leadership of Mrs. F. Slavenson and the Explorers under the leadership of Miss Annabelle Curwell jointly performed a candle-lighting service. Several of the lovely old Christmas Carols were rendered by the COIT girls choir together with the congregation.

Mrs. A. Hamilton (President of the Wainwright District Presbyterial for the W.M.S.) who was guest speaker gave a very interesting talk on "The Light" followed by a short prayer. The lighting of the candles then took place with the executive of the COIT the Misses Gladys Torg, President; Joan Carl, Vice President; Lila Polard, Secretary; and Mabel Dalton, Treasurer leading as first, second, third and fourth candlelighters. Each in turn spoke a few words followed by the other girls lighting their candles and then the group stepped back to form a lighted cross while the Explorers lit their candles. The two groups then moved down from the choir box and down the centre aisle of the church and stood at the back during the singing of "Hark the Herald Angels Sing."

Mrs. Long who supplied the music for the evening played a march while the girls filed back into the vestibule and the service was then closed with a prayer.

Any mother attending this service must have been greatly impressed by the training these girls are receiving. It is apparent a lot of time and effort are devoted to the girls by the leaders of these two groups.

## Gospel Mission Have New Quarters

For some time the members of the Wainwright Gospel Mission, under the leadership of Mr. D. Butler have felt a need for larger Sunday meeting place, and a deal was made during the past few weeks whereas the former Canteen Hall was sold to this organization.

A very sumptuous lunch was served by members of the club topped by ice cream. The new quarters of the club, we regret to learn, the ladies members, but know they will always have the interest of the Sew and So Club at heart.

## Christmas Holiday Period For Schools

A 12-day Christmas holiday period for Alberta's more than 150,000 school children was announced Tuesday by the provincial department of education.

Under the provisions of the School Act, schools in the province will close on the afternoon of Tuesday, Dec. 23 and will reopen Monday morning, January 6th.

## Lloyd Reynolds Promoted at Yale

New Haven, Conn.—Lloyd G. Reynolds formerly of Wainwright, Alta., has been promoted from associate professor of economics at Yale university to a full professorship. The promotion was announced Wednesday.

Prof. Reynolds attended McGill university and received his doctor's degree at Harvard in 1936. He has been a member of the Yale faculty since 1945.

3,300 Concerts In Twelve Months  
The Second Annual Report of the Arts Council of Great Britain, published at the end of November, states that during the year under review 3,300 concerts were provided either directly by the Council or in association with local bodies. 58 companies produced 419 plays or ballets touring Britain while 92 art exhibitions were held in 335 different places. The Council received \$1,260,000 from the Treasury which was an increase of \$340,000 on the previous year. These funds were disbursed in the form of financial support and guarantees to various ventures.

BRITAIN'S RAILWAYS TO BE UNIFIED  
Big changes are taking place on Britain's railways. When the Transport Commission takes over the entire network on January 1st it will be welded into one complete unit or organized in six regions. They will then become British railways and be known as "British Railways." This title will replace those of the four mainline companies now working separately.

## Governor General Opens Parliament

Minus the pre-war scarlet tunics and beards of the Governor General's Foot Guards, but with the usual pageantry and traditional formality of custom, His Excellency Viscount Alexander, this afternoon, presided at the opening of the fourth session of the Twentieth Parliament in Ottawa. The Governor General is shown above with Lady Alexander, taking the salute from a composite Guard of Honour, on his arrival at the Parliament Buildings. (CANADIAN ARMY PHOTO)

## Wildlife Oddities

Wildlife oddities of unusual interest are brought to the attention of the Wildlife Service of the Department of Mines and Resources in Ottawa from time to time. A bull frog in Quebec that swallowed two ducklings; a hen in Nova Scotia, that returned after three weeks' absence, accompanied by a flock of nine starling wild ducks; a dog in Prince Albert National Park that eats tobacco; a bear with four playful cubs that meeta trains at Jasper; and many others.

The latest report is from Waterton Lakes National Park in Alberta, where a cutthroat trout taken by an angler from North Lineham Lake during September, contained, among other items of food, a dusky mountain shrew. The shrew is a tiny, furry gray mammal, 4 1/2 inches long, that lives chiefly on insects. The trout weighed 1 lb. 6 oz., was 34 1/2 inches long and was approximately 7 years old. It was quite fat and in excellent condition.

This is the first record, so far as is known, of a cutthroat trout in a national park having been found to feed on a mammal, since the usual diet of this species consists of insects, other invertebrates and small fish. It is also the first record in a national park of a shrew of this species occurring in an altitude of 7,000 feet above sea level. The shrew is a terrestrial species, and how it became available to the trout is not known.

## An Open Letter To The Legion Canteen

Wainwright, Alberta  
December 15, 1947  
Dear Sirs:  
The members of the Gerald Club wish to express to you their appreciation for the admirable manner that the Legion Canteen is conducted. Country people do so much appreciate a place like yours where there is an opportunity for old and young to rest and procure excellent food. So we extend to you and the Ladies Auxiliary our sincere thanks and the best wishes of the season.

Yours sincerely,  
ISABELLE HAMILTON.

## Ladies Curling Draw

Saturday, Dec. 20th—7:30 to 9:30  
Dundas vs Bond  
McNally vs Genderson  
Lane vs Stevenson  
McGregor vs Carter  
Tuesday, Dec. 23rd—7:30 to 9:30  
McCluskey vs Tysio  
Bradley vs Madill  
Davison vs Bond  
Davignon vs Dundas  
Tuesday, Dec. 30th—7:30 to 9:30  
Roberts vs Bond  
Lane vs Madill  
McCluskey vs Stevenson  
Davison vs McNally

## Bride Elect Honored At Shower

A miscellaneous surprise shower was held last Thursday afternoon, December 11th, when a number of relatives and close friends gathered in honor of Miss Mildred Alexander at the home of her parents.

## \$37,000,000 Film Production Plan

A \$37,000,000 production program the biggest in the history of United Kingdom film, has been announced by the J. Arthur Rank Organization, The Companies associated with Mr. Rank are now engaged on 28 full-length major feature films. Amongst the other films the Organization is producing are 23 entertainment films specially planned for children.

## More Progress In Production Drive

More encouraging news of the progress of Britain's production drive was given recently by Sir Stafford Cripps, Chancellor of the Exchequer, at a press conference in London. Sir Stafford announced that steel output was still running at an annual rate in excess of the 1948 target of 14 million tons. The cotton industry has also responded to a call for higher production and in eight weeks the Spinning Section reached its immediate target of a 10% increase.

## BURGEN'S VOCALIST

Anita Gordon, teen-age vocalist, is heard with "Bergen and McCarthy" (CBC Trans-Canada network, Sunday, 7:00 p.m. The ventriloquist's two wooden proteges—Charlie McCarthy and Mortimer Snerd—and the music of Ray Noble's orchestra, are also heard.

## Accident at Kinsella Of Interest Here

On Sunday afternoon curling games between L. Mitchell's rink and Art Kleinmeyer's rink were scheduled between Billy Rose's rink and another Sadevick rink to be played in Wainwright.

The other Sadevick visitors arrived in Wainwright on time and started to play the Mitchell rink, when after a few ends had been played they received word from Viking that the other car carrying the Rose rink had met with an accident near Kinsella.

Details of the accident at the time of writing are not plentiful, but the Star has been given to understand that Mr. Rose is in the Viking hospital suffering from a broken leg, and the other passengers received several cuts and bruises as well as other undetermined injuries.

The L. Mitchell rink played host to their visitors at a dinner before they left for Viking.

"This accident will no doubt prevent Alberta's famous curler from entering in the Nipewan Curling Car Contest."

## Ceremony To Open New Ice Sunday

Plans are in the formative stage at present, but if all goes well the new ice sheet of curling rink will be officially opened on Sunday, December 21st. Mayor Robinson will be on hand and it is expected that he will sever the "golden cord" and declare the new sheet of ice officially opened.

The public is cordially invited to be on hand when things get under way at 2:00 p.m. followed by a curling match between four local rinks and four visiting teams from Chauvin, Edgerton, Hildesheim and Irma. Curling will undergo Monday last for the 1947-48 season with the men's teams holding their first draw at 7:00 p.m. followed by a 9:00 p.m. draw. The Ladies Curling Club held their first match on Tuesday and so opened their activities for this winter.

There are 31 rinks in the men's club and 10 rinks in the ladies, making this year a near record as far as numbers of players, following this grand old game. From observations since Monday, almost half the town is complaining regarding the stiffness of the legs and shoulders, but this no doubt will be a forgotten ache by the time the bonspiel rolls around on January 28-29-30.

The ladies bonspiel is planned to start on February 2nd and it is hoped that this year a larger number of outside rinks will be entered to play for the prizes.

## B.P.O.E. Hold Dance

The evening sponsored by the BPOE Lodge No. 22 on Tuesday evening of last week proved one of the better dances of the season.

Brother Keith Fenby opened the dance with a short address of welcome to everyone present, followed by a short speech by Mr. Ken Kennedy. Music was supplied by the Wainwright Swingers to a capacity crowd.

A lovely lunch was served at midnight after which another two hours of dancing was enjoyed by all.

## Record Month For Motorcar Exports

The value of Britain's motor industry's export of vehicles, parts and accessories in October was just under \$250,000,000, only six times the average monthly figure in 1938. Reports of motorcars in the same month reached a record volume of 15,216, surpassing by 1/10 the previous peak figure of 13,864 cars exported in July of this year. The monthly average in 1938 was 5,884 cars.

## Pithead Surgeries For Coal Miners

Surgeries in charge of a State registered nurse working under the supervision of a doctor, are being provided in bathtubs at all the pitheads in Britain. The first of these new colliery medical treatment centres has just been opened by the Minister for Fuel and Power in Durham. The scheme is part of the comprehensive social services for miners, which are being provided through the 1,600 pumps, badly needed in Eastern Canada, was cited as an example of the Institute's efforts to overcome bottlenecks in delivery of plumbing and heating equipment and assure equitable distribution of available materials where most needed.

## FOOD FOR BRITAIN

It will be noticed in the Letters to the Editor column of this week's paper, a letter outlining a very worthy project, which should make the joy of Christmas just a bit more, in many British homes this season.

A local church is about to undertake a food giving campaign, which if everyone co-operates, will give many British families, something extra in their food rations. While this venture has been undertaken by one church, as the letter points out is un denominational in character. We have a clipping from the Weekly Marketing News, in which a Britisher outlines to the editor of that paper, their plight in the British Isles. It is entitled, "A Letter from England," and it reads;

"You cannot realize how grateful we are for anything you can and will send us. I read in the paper that a Canadian Agriculturist told them in Canada that the British people looked well fed and dressed. I resent this very much, we've stood eight years of shortages without pulling long faces and growling, but we are really getting to the end of our tether, nervy and tired of all the restrictions and jumping about, now the latest is 8 pence worth of meat a week.

Everything costs more, food and clothes, and as for being well dressed, if some of us were turned upside down, we would be seen to be a thing of shreds and patches. Wemay look a stolid people but we're all there and gay at heart and can hold our heads up with anybody."

This letter speaks for itself. The British people are far from the best fed or clothed in Europe to-day. Miss Eileen Forsters letter in THE STAR last week, should without doubt confirm this point. It is a very small thing to do, for all will remember how Britain suffered the brunt of the war only a few short years ago.

For what? For all of us, and civilization. Surely a food parcel now, at this time of year, is a small token of appreciation for the sufferings that these people have endured

## LET'S KEEP IT AT HOME

Much publicity has been given recently, regarding the possibility of Alberta exporting natural gas to distant Canadian markets. This publicity no doubt has been built up by people interested in seeing that our natural gas is exported, rather than by the Government in the capital. As for our own opinion, we say "let's keep it at home."

Everyone is aware of the development that could be made by exporting natural gas from the Province. The Provincial Government would collect substantial amounts in royalties from the sale of such a product. It would create a huge employment picture, from the manufacture of transmission lines, valves, and other necessary material, and no doubt such an exportation would be very welcome, in the east, and British Columbia, as a step in the modern direction. There is little doubt that natural gas is far superior to the manufactured variety that these distant points are now using.

On the other hand the exportation of a natural resource such as natural gas, would for time to come, nullify the Provincial Government efforts to induce industry to locate in Alberta. At the present time there are members of the Provincial Cabinet, who are either away, or are planning to leave shortly on a tour to sell Alberta as a location point to English industries. This would, in our opinion would defeat the purpose of their trip. The outcome of this trip will not likely be known for a few years to come.

If natural gas is exported to Eastern Canada, what other major inducement is there for industries to locate in Alberta. At present the eastern objective of such, is Winnipeg, but if it is allowed to carry that far, it is highly probable that agitation will continue to carry it farther east. This would lead to further industrialization of Eastern Canada, a fact that the people of this Province would not be too happy to see.

There was recently appointed a commission to investigate our natural gas reserves, and while their reports have not been brought in as yet, these reports have no bearing on the issue. While it is very well to know how much gas we have at our command, no Geologist, politician or what have you, can fortell the need for such gas, or the future need to come. It is impossible to visualize the future industrialization which could be brought by the fact that Alberta has ample natural gas reserves.

At present the Standard Oil Co. of California and other oil interests, are conducting surveys in the Brandon region of Manitoba, therefore oil and natural gas may be found in commercial quantities at any time. If such deposits were found, our gas would then get a second rate welcome from that section of the country and points east.

Let us therefore keep our resources at home, and so bring the industrialists and their plants here. If they want natural gas they know where it is, let them come to use it. A parallel to this story, might be summed up, in the old story of the mountain and Mohammed.

Let Alberta be the mountain.

by ottawa observer

**OUR PARLIAMENT OPENS**  
As this is being written parliament is opening with much of the old-time beauty and pageantry. One cannot view the forms and ceremonies closely resembling those of the United Kingdom without feeling very deeply the long struggle and suffering to gain the political liberty which we enjoy.

More deeply still does one feel that it is this political liberty that has given us the opportunity to achieve, under the initiative of freedom, a measure of economic liberty and prosperity far exceeding that of any other form of government, and which offers greater prospects for our future.

**THE PROGRAM**  
Last Thursday the Prime Minister returned from Great Britain and the continent of Europe appearing full of energy and in the best of health. Mr. King emphasized again the dangers of the European situation and stressed the need for moderation "for patience and goodwill" in all our contacts between ourselves and the world between classes and nations retarded recovery and prosperity and could lead to disaster.

**THE PROGRAM**  
The highlights of the government's program is already known; to ratify the extensive trade agreements made at Geneva. To consider the measures taken by the government to meet our exchange needs, and to strengthen our Canadian economy for the benefit of all sections of our people.

Mr. Coadwell, the CCF leader, has outlined a program which he said would be discussed by the members of his party. It recovers the control of prices of food, clothing and fuel rationing if necessary. Farm representatives here felt that control of food prices is unfair to them unless wages and manufactured goods are kept within their ability to pay.

The Progressive Conservative leader, Mr. Bracken, promised that the program of his party would be decided and announced after the members met in caucus.

**TRADE IN A TWO WAY STREET**  
Perhaps since confederation Canada's department of Trade and Commerce, like the trade departments of all other countries, concentrated on finding and holding markets for the products of Canadian farms, fisheries, and forests. Ever since the end of the war has made external trade again possible Canada's Minister of Trade, Hon. J. A. Macdonald, has recognized trade as a two-way project and has paid equal attention to imports and exports.

For this reason his 1947 goodwill trip to South Africa and the Mediterranean countries has had exceptional success. Almost every country visited by a great deal more from Canada than it is able to sell to us. This creates an exchange situation for our customers which Canadians understand and appreciate. This attitude on the part of Mr. Macdonald's trade mission created good-will for Canada that will be of great value when we reach the position, now predicted, where we need wider markets for the things we produce.

**RECIPROCITY**  
To Canadians Mr. Macdonald said "Never before have I been so impressed by the need of Canada to buy from the countries which buy so much from us, especially those of the British Commonwealth countries. We must realize that by so doing we are directly assisting and strengthening the United Kingdom in her present financial difficulties and, of course, help ourselves." Last year we sold to the United States of America 19 million dollars worth of our products and purchased less than 8 millions from them.

**FACTS OF INTEREST**  
1. It is reported here that, in the election for a mock parliament held in the University of Alberta last week the result was: Liberals 604; CCF, 488; Social Credit 377; Progressive Conservative 155; Labour Progressive (communist) 79.  
2. The citrus fruit growers of Mexico are prepared to furnish supplies to Canada in accordance with our required specifications. Their production of oranges doubled during the last seven years. These can be shipped by rail through the United States in bond between October 1 and March 15 of each year.

**SHE TRIED IT OUT**  
One morning while shaving, a young husband was carrying on so angrily that it attracted the attention of his wife who was preparing breakfast in the kitchen. "What in the world's the matter?" asked his young spouse.  
"My razor-it won't cut!" shouted the husband.  
"Don't be silly, dear," she replied. "You mean to tell me your beard is tougher than linen?"

**OUT DOWN ENGINE REPAIR**

R. T. Stephenson, Department of  
Agricultural Engineering, University  
of Alberta, says that the cheapest re-  
pairs for your engine are proper lu-  
brication and servicing. Mr. Stephenson  
offers the following six points  
as a summary of good engine lubri-  
cation. "Attention to these details,"  
he says, "will result in longer engine  
life and fewer repair bills."

1. Service the oil filter, air cleaner  
and seals to prevent dust and dirt en-  
tering engine.
2. Avoid cold engine operation, and  
bring engine up to operating tempera-  
ture as quickly as possible.
3. Use as light an oil as recom-  
mended by the manufacturer until  
oil consumption is excessive then  
change to heavier oil.
4. Change oil as recommended to a-  
void accumulation of corrosives.
5. Use heavy duty oil if considered  
necessary for heavy load and hot op-  
erating conditions.
6. Do not mix regular and heavy  
duty oils, and follow recommended  
procedure for changing over from  
regular to a heavy duty oil.

**LIVE STOCK SURVEY**

From the Dominion Bureau of Sta-  
tistics during the past few days, live  
stock and poultry survey forms have  
been mailed to thousands of farmers  
across Canada, requesting informa-  
tion concerning live stock operations  
on their own farms. A large number  
of returns is needed in order that a  
representative sample of the live  
stock industry may be obtained from  
each of the provinces.

The success of the survey will de-  
pend to a great extent upon the co-  
operation received from farmers in  
filling out and returning these forms.  
The Dominion Bureau of Statistics is  
the official source of statistical in-  
formation which is used by govern-  
ments, industry and farm organiza-  
tions. A true picture of farm condi-  
tions across the country helps the  
farmer to plan his own individual op-  
erations. You can help by completing  
and returning your survey form  
promptly.

**Import Control To  
Effect Daily Lives**

Ottawa.—The Hon. Douglas Ab-  
bot, Minister of Finance, last week  
announced the establishment of a sepa-  
rate division of his department  
which will deal specifically with the  
new import restrictions, applied as  
part of Canada's emergency plan to  
conserve United States dollars.

K. W. Taylor, Assistant Deputy  
Minister of the department, is head-  
ing the new division which is re-  
ceiving applications for quotas from  
Canadian firms on those items which  
partial restrictions have been im-  
posed and is also dealing with border-line  
cases where there are some unusual  
circumstances.

In announcing the dollar-saving  
plan on November 17, Mr. Abbott said  
that importation of some consumer  
goods would be prohibited and that  
imports of other consumer goods  
would be restricted by the imposition  
of quotas. In the case of capital  
goods, possible restrictions depend on  
the recommendation of the Minister  
of Reconstruction and Supply.

The list of items to be prohibited  
includes such goods as jewelry,  
candy, novelties, typewriters, radios,  
refrigerators, washing machines and  
furniture. The import of motor vehi-  
cles will also be prohibited tempo-  
rarily with the expectation of later  
placing this item on a quota basis.

Goods which are to be restricted by  
import quotas include: in the fruit  
and vegetable category, such items as  
oranges, grapefruit, lemons, fruit  
juices, potatoes, apples and onions.  
However, imports of almost all out-  
of-season fresh fruits and vegetables  
and almost all kinds of canned goods  
are to be prohibited. No restrictions  
are applied to bananas, raisins, figs  
and prunes.

In textiles, no restrictions are placed  
on raw materials or yarns but al-  
most all other textiles are to be placed  
on a quota basis. A third group of  
goods, including all leathers, all kinds  
of footwear, gloves, leather

garments and luggage, and a fourth  
group of miscellaneous items, such as  
clothes and watches, cutlery, games,  
toys and sporting goods and smokers'  
supplies, will also be under quo-  
ta.

**Danger In High  
Production Costs**

From Trinidad comes news of an  
inevitable trend in the international  
market. It is reported that collapse  
of the high wartime prices for natu-  
ral rubber will probably mean the end  
of the rubber industry on that island.  
Production costs before the war  
were too high to compete with far  
eastern producers, and it was only the  
high prices paid by the United States  
during the war that permitted local  
production. In addition, rubber tree  
growers have had to meet competi-  
tion from synthetic plants in Cana-  
da and the United States.

Throughout 1946 the Canadian gov-  
ernment carried out a national ad-  
vertising campaign on the "C.Q.P."  
theme—stressing to Canadian pro-  
ducers the need for Continuity of  
supply. Quality that is high, and  
Price that is competitive. If they  
were to survive in the international  
trade. Thriving under abnormal con-  
ditions, the Trinidad rubber industry  
is now on the verge of collapse be-  
cause it is unable to meet the price  
of the competitive postwar market.

**Victuals For Victory**

When the ski instructor or phys-  
ical director advises an aspiring play-  
er to drink more milk and pack away  
plenty of vegetables, along with his  
meats, he's not only helping to cre-  
ate championship calibre, he's doing  
a smart job as a health-educator too.

Health officers point out that, dur-  
ing the war, combat troops were kept  
in tip-top condition for victory  
with healthful victuals. Proper diet  
is essential, they remind Canadians,  
for fitness at any time.

**Featured Foods**

People who run boarding houses or  
restaurants usually stick to addi-  
tional "stand-by's" which they think most  
people want. The customer, of course,  
is always right. Canadian health of-  
ficers suggest that patrons of eating-  
places, therefore, order healthful  
foods and thus create a demand for  
them.

Only when there is a general call  
for really nutritious meals will such  
foods be featured on menus.

## GERALD

This week Farm Forum met at the home of Mr. and Mrs. Deyall with 16 people present. The subject for discussion was "Organizing for Community Action". Such projects as community weed spraying, central seed cleaning and the showing of National Film Board pictures were discussed. The secretary was instructed to write about National Film. After a social lunch was served by Mrs. Deyall.

Mrs. and Mrs. F. McCannan and baby Judith were visitors over Sunday at the home of Mr. and Mrs. Myggland. When the Gerald Farm Forum met at the home of Mr. and Mrs. R. Campbell on Monday of last week, the subject discussed was "The Teacher in the Community". One question answered was "Should a rural teacher's salary be higher or lower than that of a city stenographer, the local minister, the district agricultural teacher in one room in town." There were 15 people present. Mrs. J. Perkins and Mrs. W. Taylor were selected to answer a questionnaire on educational matters. After a social lunch was served by Mrs. Campbell.

Mr. H. Hamilton was a visitor in Edmonton for the week-end. Mr. and Mrs. W. E. Moffatt left on Wednesday last for Vancouver where they expect to spend the winter. Mr. W. Peasey has gone to North Battleford to visit his father. The Gerald Christmas Tree is on Friday, December 19th.

## EDGERTON

The free picture show tickets donated by Steele's Sales and Service were won by Phil Johnson, Wilma Boswell and Harry Harrison. The ballot box is in Miles Garage this week.

The telephone construction gang were called off their job here Monday to go to Westlock to repair damage to the cables there caused by the recent fire.

Norman Miles and family motored to the city Wednesday and were accompanied by Mrs. E. Hallett and Mrs. Kingston.

The Legion Women's Auxiliary card party at the Hall last Wednesday was quite a success, eleven tables of players enjoyed the evening. A nice lunch was served at the conclusion of play. Mrs. A. M. Sawyer and Faye Jackson won the 1st and 2nd prizes respectively and B. Crane 1st and H. McMillan 2nd in the game. Mrs. R. Thompson was taken to Wainwright hospital last week.

Oscar Walrath has taken delivery of a new Dodge car.

News was received Friday of the death of Worthy Grand Matron Mrs. Keohane the funeral took place at Medicine Hat Saturday. It will be remembered Mrs. Keohane visited the Tweedsmuir Chapter quite recently in her official capacity as W.G. Matron of Alberta, Order of the Eastern Star.

Ferry Perkins was a visitor here Saturday.

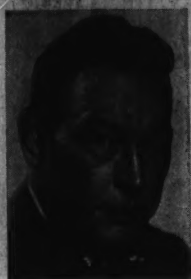

Ted and Phil Pawsey were here over the week-end. Anyone interested in the schooling given to their youngsters should pay a visit to the primary room at this school. It is no wonder the little ones have such a love for their teacher Mrs. McLean when one sees this room so wonderfully decorated in such an educative way to interest and teach them. It reflects very great credit, especially as it must have taken so much work both by teacher and pupils.

The Annual Meeting of this subdivision of the Wainwright School Division was held in the School Wednesday, December 10th. There was an attendance of 12. Mr. H. E. Spencer was nominated chairman and O. Griffiths secretary of the meeting. Very detailed accounts were given of the various departments and especially of the Dormitory.

Please remember the following dates: Thursday, December 18th at 8:30 p.m. Green, the 18th, Friday and Saturday December 19 and 20 Free Picture Shows sponsored by the merchants of Edgerton at 2:30 p.m. and 8 p.m. each day and on Sunday, December 21st at 2:00 p.m. The picture "King of Kings". Admission is free and a collection will be taken to defray expenses.

Seven times as many unskilled workers die of tuberculosis as professional people. The disease kills three times as many unskilled laborers as skilled workmen.

## Comedian

From a rural comedian who entertains CBO Trans-Canada network listeners on Sundays at 8:30 p.m. with the aid of Portland Hoffa, Dal de Mexico singers, the eccentric residents of "Allen's Alley" and Al Goodman's orchestra, began his career as a juggler. He has been broadcasting since 1932.

## PELICAN

The December meeting of the Pelican UFWA was held at the home of Mrs. Ole Haugen on Wednesday, December 10. There were six members and one visitor present. This was to be an annual meeting but due to the apparent lack of interest on the part of most of the ladies of the district, it was decided to discontinue with the activities of the club until spring. Plans for the Christmas doings at the schools were discussed. It was thought possible to combine the two schools Empire and Pelican for an evening party at Pelican. \$2.00 was donated to the T.B. fund and \$10.00 to the CICA Fire Fund. As there was a flood crop of vegetables in this district and there does not appear to be any market for them, the secretary was instructed to inquire about the possibility of donating these vegetables to needy folk. There was some discussion on the objectives of the Canadian Consumer Association. Mrs. O. Greibrok won the hostess prize.

Mrs. R. Greibrok is enjoying a holiday visiting with Mrs. Bengtson in Wainwright.

Congratulations to Mr. and Mrs. Bert Wilkinson on the birth of a daughter at Wainwright hospital, Tuesday, December 9th.

We notice Miss Laura Belanger wearing a cast on her right arm due to having injured the muscles in the forearm of her arm. We hope that she will be able to remove the cast in a short time.

Miss Phyllis Bovenkamp was a week-end visitor home with Miss Marie Bell.

Tuberculosis takes 16 Canadian lives every day. In 1900 the death rate was five times what it is now.

## Notice to Beekeepers

The annual meeting of Wainwright and District Beekeepers' Association will be held in the 1007 Hall on Saturday, December 27th at 2:30 p.m.

Bees for next year should be ordered now. This is important.

## McCafferty & Browning

Very hearty congratulations are being extended to our school teacher Bert Wilkinson and his wife on the birth of a young daughter at the Wainwright hospital.

Congratulations are also being extended to Mr. and Mrs. Pat McManey on the arrival of another grandson Daniel Patrick McLeod in Wainwright.

Browning and Doloy held their combined UFWA meeting at the home of Mrs. Arlie Nelson in Browning. Mrs. Gus Nelson and Mrs. Frank Armstrong were elected delegates to the annual convention in Edmonton.

There have been several Wainwright visitors this week among whom were Mr. and Mrs. Frits Alwood and Lorna, Mr. and Mrs. Frank Ryan, Mr. and Mrs. Harry Scott Messers, Carney, Nicholson, Smithson and Spencer.

Comie Smithson was a visitor in Edmonton the past week but has returned, while Ted Hedlund has gone to spend some two months there. Mrs. Jack Thompson who has been

## Notice of Preparation of Assessment Roll, 1948

**BORN**—To Mr. and Mrs. Joe Cochran of Chauvin at the Wainwright municipal hospital on December 12th, a girl.

**BORN**—To Mr. and Mrs. J. Wilkins of Edgerton at the Wainwright municipal hospital on December 10, a girl.

**BORN**—To Mr. and Mrs. A. C. Reid of Chauvin at the Wainwright municipal hospital on December 12, a girl.

**BORN**—To Mr. and Mrs. G. Gode of Chauvin at the Wainwright municipal hospital on December 12th, a boy.

**BORN**—To Mr. and Mrs. J. J. Farnham of Farnham at the Wainwright municipal hospital on December 15, a boy.

**BORN**—To Mr. and Mrs. W. G. Saunders of Greenfield at the Wainwright municipal hospital on December 15th, a girl.

Information is to hand from the Town Office that a petition has been received from the business men of the Town of Wainwright requesting that His Worship the Mayor proclaim Friday and Saturday, December 20th and 21st, civic holidays. It is expected that this request will be granted and officially proclaimed after the regular meeting of Council to be held December 16th.

Mr. Ted Pawsey of Lee Park arrived in town at the week-end to visit with his parents Mr. and Mrs. Don Pawsey on 4th Avenue East.

Mrs. W. Christenson of Tofield spent a few days in town last week operating the linotype at the Star Office while Miss Frances Carroll is on vacation.

Mr. Phil Pawsey returned the beginning of the week to Moncton, N.B. after a vacation spent with his parents Mr. and Mrs. Don Pawsey in town.

Draw for the Doll sponsored by the New Canadian Club will be made at the Elks Theatre on Saturday, Dec. 20th, at night.

Mr. and Mrs. Roy Hartling left the first of the week for vacation in California and expect to be gone until after the new year.

Messrs. Gregor, McCluskey and Cliff Reynolds drove to the city at the week-end to attend a dealer's meeting and showing of the new Dodge trucks. They were accompanied by Mrs. Reynolds.

Mr. and Mrs. Joe McClellan left on Sunday night's train for Barrie, Ont. where they will spend a few months visiting with relatives.

The Wainwright Gospel Mission held their first service in the New Mission Hall, located on 4th Ave. East, on December 15th with a large crowd attending. Mr. Oacraft from Edmonton was the guest speaker for that service. Allen and Fay Bouch from Heath rendered a duet.

Mr. P. F. Peterson of Minburn moved over to Wainwright at the week-end renewing acquaintances.

Latest word from Alberta Tuberculosis Association is as follows: "Provincial Christmas Seal receipts now sixty six thousand dollars. We are passed half way mark but still require fifty nine thousand to reach objective. There is no better way to express Christmas spirit than by sending contributions now to fight tuberculosis."

Alberta Tuberculosis Assn.

Mr. Dave Jones is at present a patient in the Colonel Mcburn hospital in Edmonton and it is hoped he will soon be improved in health.

Misses Kay Jones and Ruth Schovalier spent the week-end in the city.

Have you placed your gift on the tree in the Legion Hut yet? There is still time the closing date being Saturday, December 20th.

Mr. and Mrs. A. S. Rattray spent a few days in Saskatoon last week where Albert took delivery of a new Chevrolet coach.

**CARD OF THANKS**

Mrs. Cleland and family wish to thank their many friends for their generous donations gifts and the many kind acts following the loss of their home by fire.

**Public Notice**

The Station Restaurant  
will be closed to the public  
on both Christmas and  
New Year's Eve.

**Were Sorry...**

That this weeks Star is late in reaching our subscribers, but owing to unforeseen circumstances this delay could not have been avoided. During the past week trouble has been our middle name, but we are happy to say that things are gradually getting back into shape. We trust that our subscribers and advertisers will bear with us in this matter.

THE EDITOR

Mr. and Mrs. Jason Smith plan to leave for a holiday at the coast in the near future.  
It was learned last week that Mr. and Mrs. Mike Fyfe and family have been transferred from Lethbridge to St. Albert.

**SQUENTING**

No matter how young a child is, he should be given special medical attention if he squints. Medical authorities declare that squinting, which develops in infancy should be investigated and treated. If left too long, the vision in the squinting eye may be lost through disuse. This, the experts say, is very likely to occur if nothing is done before the age of five or six years is reached.

## McCaferly U.F.W.A.

McCaferly U.F.W.A. held their December meeting in the school, Mrs. H. E. Spencer, assisted by Doreen Gray had decorated the room for Christmas and erected lovely tree in one corner. The members exchanged Christmas gifts.

Arrangements were made to hold a social evening on December 20th, with no charge to be made, but all to bring a lunch.

During the coming year, each member will be asked to give a demonstration of some kind, at one of the meetings, and Mrs. Connie Smithson and Mrs. Fred Abbott, to be responsible for the January meeting.

It was suggested that the local give a donation towards furnishing a ward in the Wainwright hospital. This matter was tabled until a later meeting when there would be more time for discussion.

A resolution will be sent to the convention, asking that the members support a plan of giving "In Memory" books in place on the usual flowers at funerals.

Ten dollars was donated to the Christmas tree fund, and some of the members offered to make candy to help out. The convention resolutions were read and discussed. Mrs. Bob Jackson, was appointed delegate to the annual convention.

After the meeting, lunch (including angel food and Christmas cake), was served by Mesdames F. McBride, Bert Wilkinson, R. Jackson, and Brenner.

The next meeting will be held at the home of Mrs. Frank Davison on January 20th.

## Sunnysvale U.F.W.A.

The Sunnysvale U. F. W. A., held their regular December meeting at the home of Mrs. Frank Redmond, Thurs, December 11th with an attendance of seven members.

Correspondence and Bulletins were read and discussed. The thought for the month was read by Mrs. Eimpey, and was very much appreciated by those in attendance.

The exchange of Christmas gifts was cancelled this year, and the money was used to send fruit and flowers to a member who is sick in the hospital.

Officers for the coming year will be the same, as the former officers have kindly consented to act for another term. Mrs. F. Ford was chosen to act as the official delegate to the next convention.

The meeting was adjourned, followed by a dainty lunch.

## SEAL SALE GOING WELL

Christmas Seal returns are coming in very well, according to R. W. Roscoe, president of the Alberta Tuberculosis Association.

Mr. Roscoe said: \$125,000 is a large sum to collect in Alberta, considering that we leave it entirely with the individual as to whether he gives and how much. Last year nearly 45,000 individual contributions were received. This year we hope that at least 75,000 Albertans will be sufficiently interested in our work to help us.

Mr. Roscoe pointed out that to date nearly 400,000 residents of Alberta had received a free chest X-ray by the Christmas Seal Mobile Chest X-ray units, and that the annual Seal sale provided a large part of the funds needed for their continued operation.

Last year in Canada nearly 6,000 persons died of tuberculosis. Mr. Roscoe said, and a great many of those deaths were unnecessary. Christmas Seal funds are used mainly in the effort to prevent future unnecessary deaths.

## With the Field Supervisor

### SEED GRAIN

From reports that we have received from the Dept. of Agriculture, and other reliable sources, there is going to be a very short supply of seed grain in the spring. Therefore, with this information in mind it would appear that the bulk of seed grain, especially oats and barley, will have to be supplied locally.

The Agricultural Service Board at their last meeting Dec. 9th, decided it would be necessary to assist the for seed, and are prepared to take seed orders and order seed for distribution in the district.

We would appreciate any farmer having course grain on hand, that he thinks will make seed, to leave his name, kind of grain, and approximate number of bushels, at the office with Mr. J. S. Robblee, District Agriculturalist or myself, in order that we might avoid disappointment later on in the spring.

### JUICE FOR JUVENILES

To resist infection during the cold, dark days of winter, children need the vitamins in cod liver oil and orange juice every day. No matter how healthy the children may appear now, they will not continue to do well unless they get these vitamins.

Cod liver oil is rich in vitamins A and D and helps children resist colds and other ills. It helps to form bones and teeth. Orange juice too contributes to all-round health and vitality.

## CONTINUATION OF

### The Letter Box

continued from page 2

by other available and less pleasant methods. So far, we as Canadians have rejected these methods as unhelpful to the unity and welfare of our country. We have favored the Dominion-Provincial Agreement as much the best method.

Thus the object of this agreement is to reserve out upon Manitoba dollars originating in Ontario. Its object is to reserve out the large amount of the dollars which originate in Manitoba and which under the Canadian economy flow to Ontario and Quebec, a reasonable amount to provide adequate public services in Manitoba. What fair-minded Canadian will object to this modest measure of fiscal justice?

Finally, it is we Manitobans ourselves who are retiring our public debt. We are not asking our fellow-Canadians in Ontario and Quebec to pay our debt for us either under the agreement or otherwise. And we are very anxious that they should know that this is so, through the medium of the Canadian free press, including your own newspaper.

Yours faithfully,  
STUART GARSON,  
Premier of Manitoba.

## Public School Activities

Nine films were shown last Wednesday and were very interesting to those who saw them. The showing included films on science, health, and social studies. Two special interesting films, one on Colonial Children and one on the pygmy people of Africa, were presented, and enjoyed.

We report this week that Naomi Mockford is a patient in the hospital. School finishes for this term on Tuesday, December 23rd. - HURRAH

Medical men now believe we have sufficient knowledge to eradicate tuberculosis. Christmas Seal funds are used to put this knowledge into practice.

## Come And See Us At Work, Farmers

### "Let There Be Light" Between Us

You've heard a lot of untruthful things said about the Winnipeg Grain Exchange and its Members and operations. But we should like you to come in and see us personally and discover how our Members operate for your benefit. Ask questions of the President or the Secretary, or any other Member. You will get straight answers. The more you know about The Exchange, the less likely you are to be influenced by Fool propaganda against The Exchange, and the quicker you will want to get top world prices for your wheat instead of a controlled price far below the open market price.

"Let there be light" between you and us. We are your agents. You cannot travel from China to Peru to sell grain. Our Members do that for you, in more than sixty countries of the world.

And remember, we have no more to do with "fixing" prices for wheat, oats or barley than you have. World supply and demand governs prices. You, as a well-informed man, know this.

You and our Members are in the grain business together. You produce it—we find markets for it. Without you, we could not exist (neither could the Fool). Without us, how could you find markets?

We favour a floor price for wheat administered by the Canadian Wheat Board—but we think you should have the opportunity to get top world prices through the open market. NOW to offset possible lower prices a few years from now, when world supply overtakes demand, and also to offset the losses you took in the depressed thirties. Meantime mail the coupon below for a booklet explaining the Canadian Wheat Board Act and how you are regulated and controlled by it.

To The Winnipeg Grain Exchange,

Winnipeg, Manitoba.

Please mail booklet to which you refer above.

## Along Sunwapta Way

AS HELED BY TRACTOR TO ATTEND THE "SEARCH FOR TALENT" SHOW

Wintry weather—slippery, ice-crusted roads and a 38 mile jaunt by tractor failed to dampen the ardor of two young musicians from Epcy, Alberta, who braved these hardships in order to participate in the CERN and Associated Canadian Travellers "Search For Talent" show during a recent performance at Two Hills, Alberta.

The lads who defied one of winter's colder nights, packed their musical instruments aboard their one seated tractor and headed out in search of fame, are Bill Kersluk and P. W. "Pete" Pelich.

"It was quite a chilly trip, but we wanted to get on the show," said Pelich. "Bill drove the tractor while I rode side-saddle all over it while holding instruments cases."

Said Bill modestly: "I really isn't anything. Almost slipped off the highway a couple of times when speeding cars drove by, and it was cold but really nothing to it."

And we might say, the boys gave a creditable performance during their part in the show. They did a polka number of their own origination which met with great response from the crowd.

After the show Bill said: "It was worth the trip up here and following such a nice reception going back will be a pleasure."

The "Search For Talent" show, jointly sponsored by the travellers and radio station CERN is being staged on behalf of the Northern Alberta Crippled Children's Fund. The show, a three hour affair—45 minutes of which is broadcast over CERN—plays in some northern Alberta towns every Saturday evening. During the past nine weeks that the show has been on the road they've set an all time attendance mark for entertainment affairs in country towns. On every occasion they packed the hall at which they were playing far beyond its capacity.

Showtime is 7 p.m. Broadcast time is 8:30 every Saturday night over CERN.

## A Little Child Shall Lead Them

Christmas is a festival especially dedicated to the children. The lighted Christmas tree, the brightly colored lights, the toys, the wonderfully wrapped gifts, would all lose their appeal if it weren't for the children. And no wonder. For there would be no Christmas of any kind if it hadn't been for the child who two thousand years ago lay in the manger. He it was who led the world into a new way of life. This Christmas join your friends in the church of your choice to worship again the child whose birthday we celebrate.

### Carbon Monoxide Stealthy Slayer

During the winter months, carbon monoxide climbs up the list as the cause of needless fatal accidents. With the beginning of the heating season, this silent killer begins its foray in the home and factory. Careless ventilation practices at home and in garages account for the increased toll taken by the deadly gas.

#### IN GARAGES

The exhaust from automobile engines always contain carbon monoxide—harmless in the open but deadly in closed places. Careless habits often expose car drivers and garage workers to excessive concentrations of this gas. The precautions to be taken are simple and should be vigorously followed if accidents and fatalities are to be avoided.

In small garages, the car engine should never be run unless the doors are open. Large garages should be equipped with mechanical ventilation equipment. It is essential that such equipment function properly, especially during the winter months when doors are usually kept closed. Flexible tubes should be available for conducting gases from exhaust pipes to the outside.

When driving, proper ventilation must be maintained and windows should never all be closed. Many fatalities have been caused by drivers becoming drowsy through seepage of carbon monoxide into the car.

#### IN THE HOME

Furnaces and stoves should be checked before firing is started so that heating equipment, ill-fitting pipes, worn and corroded parts, and clogged chimneys will not cause dangerous contamination of the air by allowing direct penetration of coal gas from the burning fuel into the house. Premature checking and improper use of damper is a common cause of air contamination.

Another source of poisoning is illuminating gas which may contain as high as 40 per cent carbon monoxide. Poor maintenance which allows leaking connections and loose taps to go unattended, can lead to fatal accidents.

#### IN INDUSTRY

The danger of carbon monoxide poisoning in industry is present chiefly in blasting operations, explosions in mines and quarries, steel mills, blast furnaces, artificial gas

and coke plants. A considerable hazard exists in the distillation of coal tar, smelting operations, acetylene welding and in the melting and pouring of metal in foundries. Industrial processes should be checked periodically to prevent concentrations from reaching excessive levels. Concentration of one hundred parts per million of air by volume is considered the maximum safe concentration. Air analyses will be performed by Provincial Departments of Health on request.

#### DANGER SIGNALS

Carbon monoxide gives no warning of its presence, being colourless and odourless. But the colour of any escaping gas from burning fuel should always put an individual on the alert against carbon monoxide. Early symptoms are shortness of breath, light feeling across the forehead and dizziness. Collapse and unconsciousness will ensue unless the victim is removed to the fresh air.

#### TREATMENT

All treatment begins with the prompt removal of the patient from exposure. A doctor should be called at once. If the breathing is difficult or has stopped, artificial respiration should be applied. The patient should be kept warm with blankets and hot water bottles and prevented from moving until placed under the physician's care.

THE SPIRIT OF GIVING

More than one thousand CJOCA listeners have sent in \$1,200 to the McCallum fire fund in one week! That speaks well for the public's ready generosity; CJOCA's effectiveness and Hal Yerxa's popularity as master of ceremonies of Byers Flour Mills Kiddles Program, the sole vehicle used in conducting this emergency appeal.

Ten days ago the McCallum Family of Patience, Alberta, lost everything in a disastrous fire. Family consisted of four small children, a paralytic father and a gallant young mother who tried to make ends meet by running a small farm and operating a small post office on the side. In her successful attempt at saving her husband and children from the jaws of

a fiery death, Mrs. McCallum was critically burned and is still fighting for her life.

One week ago today Hal literally converted his Kiddles Program into a public service vehicle, appealing for donations to the McCallum Fire Fund. Dollar bills are pouring in at the rate of 200 per day. The Red Cross is in charge of fund distribution.

A similar public service conducted in similar fashion for the Miller Family of Hanna, Alberta, one year ago was a major factor in CJOCA's winning of the Billboard Award in public service a few months ago.

### Canadian Fertilizers Contribute to World Recovery

One of the more important causes of the slow recovery of food production in many parts of the world, and the failure to expand it in others, has been the extreme shortage of fertilizers, particularly nitrogen. The fertilizer branch of the Canadian chemical industry witnessed outstanding growth during the war, due mainly to the utilization for fertilizer purposes of excess nitrogen produced for military needs. The manufacture and export of nitrogen fertilizers since the end of the war constitutes a major effort on the part of Canada to alleviate the world food shortage by increasing agricultural production.

Canada's fertilizer manufacturing industry comprises 23 establishments, employing 3,200 workers with an output valued at \$50,600,000. Exports of fertilizer from Canada have increased from \$500,000 in 1938 to over \$23,000,000 last year.

All exports are controlled by the fertilizer committee of the International Emergency Food Council, which supplies more than 100 claimant countries from the pooled production of the manufacturing countries. Allocations are established on the basis of the more urgent food necessities, and equitable distribution is thus maintained.

The importance of nitrogenous fertilizers is best illustrated by the fact that only 10 per cent of Canadian production is required for domestic needs, and as a result, Canada is able to make a substantial contribution to the agricultural output of more than 50 countries.

RECREATION'S RELEASE  
Anything which brings stimulating

pleasurable relaxation is recreation, make particular contribution, to our daily labor as long as it is pursued as a personal interest and not merely as a continuation of work. In other words, don't work at play. Relax with pleasurable pastimes, for real pleasure may be closely related, and benefit.

# GREENSHIELDS

Mrs. Ed Patterson was a tripper to Edmonton early last week and visited his father at the Royal Alex hospital.

Thursday of last week, Mrs. V. Lindberg entertained fourteen members of the Ladies Aid for the December meeting. Except for reports and election of officers for 1948 which resulted as follows:

President—Mrs. Garney Murray  
Vice President—Mrs. A. E. Kett  
Sec. Treas.—Mrs. R. Morrison (re-elected)

Work Convenor—Mrs. W. White.

There was little business. The meeting had the air of a Christmas party.

for all received gifts from a pretty tree and had a most enjoyable afternoon. Mrs. Kett and Mrs. V. Lindberg served a delicious Christmas lunch.

Mrs. and Mrs. Bill Daniels were visitors in Wainwright a few days this past week.

We understand that Mr. Ed. Patterson has recently purchased Mr. Tom Patterson's farm. For that reason Mr. and Mrs. Douglas Roach moved to the Aleck Plater home during the week.

Several district residents attended the dance and shower in honor of Mr. and Mrs. Phil Laybourn at Trailways on Wednesday night and report a very enjoyable time.

## Gifts for Home ... Sweet Home

**Studio Lounge  
CHAIR**

Just arrived, in time to make someone's Christmas happy. A new Studio lounge and matching chair in Wine Velour tapestry. This is the gift that will continue to keep on giving all through the year.

**Chesterfield  
Suites**

We have a nice assortment of Chesterfield Suites with two matching chairs in silk tapestry and velour patterns. Make mother happy by playing Santa with a gift from our store.

## Chesterfield Tables

A varied stock of Chesterfield tables and end tables now in stock on our floor. These make ideal gifts which you will want to give and they will want to receive. Priced low to fit in to the closest budget.

## Cedar Chests...

Make her happy on Christmas morning by giving the gift that she always wanted. A Cedar Chest from McLeod's is sure to please the feminine heart. Don't disappoint her. Order \$38.50 up

**F. E. McLeod & Co.**

Phone 14 or 104

WAINWRIGHT, ALTA.

## Please Note —

that starting Saturday, January 3, this store will be closed at 6 p.m. and each succeeding Saturday at the same time during the winter months. THANK YOU
